INFORMATION REGARDING COMPLAINTS OF CODE, ORDINANCE AND ZONING MATTERS

Unity Township has adopted a Comprehensive Code setting forth the regulations affecting all properties within the Township and establishing reasonable regulations on certain activities where authorized by law. However, many instances of alleged violations occur in areas that may not be readily accessible to Township officials for inspection or at times when Township representatives are not available. The efforts of all residents to note violations will assist in maintaining Unity Township as a “live-able” community.

If you believe that a Code, Ordinance or Zoning violation has occurred, please fully complete a Township Complaint form and return it to the Ordinance office. Your complaint will be reviewed and investigated by the appropriate Township official.

Please understand that the determination taken by the Township may still not seem satisfactory to you. The Township is limited to the enforcement of its regulations in a reasonable manner with all residents to be treated equally. It may be that the level of compliance that meets Township standards may not be the level that you desire. In the event of a dispute in the nature of a “nuisance” activity or condition, this is the difference between a “public nuisance” and a “private nuisance.” You may have private rights and claims against a neighbor that are beyond what the law will permit the Township to enforce. You should consult your own attorney to discuss any additional claims that you may have.

All complaints filed with the Township will constitute a matter of public record and will be maintained in the Township files available for inspection upon demand.

Thank you for your assistance in keeping all properties within the Township in compliance with all applicable Codes, Ordinances and Zoning regulations.
